

Directions: Identify the parts of the ear indicated using the following terms and pg. 325 in your textbook as a reference: *cochlea, ear canal, eardrum, inner ear, middle ear, outer ear*. Take three colors and make a key. One color should represent each region of the ear: *inner, middle and outer*. Color those regions on the ear diagram. On the back of this paper describe the hearing process, step by step, starting with sound waves reaching the outer ear. (Make sure to include what takes place in each region of the ear).
